

DESIGN PARTNER PROGRAM - THREE YARDS ONLY

Half price for a year. Your fingerprints on the product forever.

DivertScan runs the scale, the tipping floor, custody, certified destruction, the client portal, dispatch, settlement audit and rebates - built inside a working DFW yard, not a software office. The first three outside yards shape what it becomes, and pay half for the privilege of putting up with us.

WHAT YOU GET

Year one at half rate, locked in writing.

Any tier. The discount survives price increases.

Setup included in the deposit.

Scale bridge wired to your indicator, capture laptop, ticket printer, driver signage, data import, training.

A direct line, not a ticket queue.

Your close-out problem this week is our build next week.

Your workflows become the product.

Contamination pricing, release handling, rebate formulas - built the way your yard actually runs.

Walk away any time.

Month to month. Your data exports with one click - it is yours, and the demo proves it.

WHAT WE ASK

A case study with real numbers.

Office hours saved, calls prevented, recoveries caught. We write it; you approve every word.

Reference calls.

A handful a year, scheduled around your day, never cold.

Patience with rough edges.

You are getting it early because it is early. Bugs get fixed fast; missing features get dated on a shared roadmap.

Honest usage.

Run the real yard on it. A shelf install teaches us nothing and earns you nothing.

SCALE HOUSE

\$225

/ mo year one - list \$450
then list rate, never higher

OPERATIONS

\$350

/ mo year one - list \$700
then list rate, never higher

TRADING

\$625

/ mo year one - list \$1,250
then list rate, never higher

One-time setup: \$2,500 - \$7,500 per site, payable on commissioning, not signature.

Covers wiring the indicator, the capture laptop, printer, rugged tipping-floor tablet and hand scanner - the hardware stays if you leave.

The arithmetic, at a typical 35-truck yard: ~100 office hours back per month, ~\$2,800 in labor at \$28/hr - 2.2x the full list price in savings alone, before recovered settlements or contamination deductions.

YARD / AUTHORIZED SIGNATURE + DATE
